

Sponsorship & Exhibition Prospectus

2026 Users' Meeting & Workshops

National Synchrotron Radiation Research Center (NSRRC)

8/25 – 8/27

Welcome

Thank you for your support as always. The National Synchrotron Radiation Research Center (NSRRC) is pleased to invite you to sign up for the sponsorship and exhibition opportunities at the 32th Users' Meeting & Workshops, taking place in Hsinchu, Taiwan from August 25 to 27, 2026. The three-day program will be packed with excitement, featuring invited talks by outstanding users and various opportunities for participants to discuss and exchange ideas.

We are expecting our program to be even more successful, with around 400 attendees this year. Many of them are interested in knowing more about our current phase-II and phase-III projects of the Taiwan Photon Source. While we show them how phase-II and phase-III beamlines and their techniques can facilitate their research, this will also be an excellent opportunity for you to demonstrate your products and the services, reconnect with old customers and make business connections with potential clients.

Please take a look at the prospectus we have put together for you. Make your selection, fill in the booking form and send it to us at lin.yk@nsrrc.org.tw. We will follow up with you shortly after that. The opportunities are available on a first come first serve basis; therefore, we encourage you to book your space as soon as possible. Please feel free to contact us if you need additional information on this event. We look forward to hearing from you!

Sincerely,
User Executive Committee
National Synchrotron Radiation Research Center
